HD Audio

High quality sound: HD voice with wideband audio USB headset for natural sounding phone calls. Microphone with directional effect and noise cancellation to reduce background noise for clear conversation. The built-in noise reduction sound card improves voice clarity, perfect for voice recognition. Acoustic protection circuit filters high volume peaks to protect your hearing.

Support for Teams®, Zoom®, UC

Multi-functional: the PC headset is perfect for office calls, Skype® chat, Microsoft® Teams, call centre businesses, YouTube® video recording, WhatsApp®, online courses, phone sales, conference calls, video conferences, webinar presentations, lessons and more.

All day comfort

Ultra comfort: hands-free USB phone headset with super soft faux leather padding without pinching or pressing on the head for relaxed phone calls. The extremely lightweight and discrete design results in less fatigue and higher productivity for users. The adjustable headband with stainless steel slider allows you to find the perfect fit.
