### Comfort and Fit

IQ4300 wireless headsets are equipped with comfortable leatherette ear cushions ensuring all-day comfort. The 330-degree-rotation microphone boom is reversible so that the microphone can be worn on the right or left side. The adjustable headband allows you to find the perfect fit without restrictions and offers excellent durability. The headset is one of the lightest in its class.

#### All-Day Comfort Design

IQ4300 headset features a soft leather ear cushion, adjustable padded headband and 180 degree rotatable ear piece for comfortable extended wear. The headset is one of the lightest in its class.

#### Bluetooth Stable Connection

The Bluetooth headset uses QCC\* technology for interference-free audio transmission up to 30m (60ft). Enjoy clear, consistent sound with multi-point pairing for PC and cell phone.

#### Long Battery Life

The IQ4300 Bluetooth headset offers up to 40 hours (Dual ear) or 22 hours (Single ear) of clear talking time, 200 hours of standby time, and is fully charged in 2 hours. Effortlessly engage the magnetic port for hassle-free charging.
