# interquartz

IQWK3 WALL MOUNT KIT

Wall mounting kit for Gemini and Enterprise Series

Overview

- Suits multiple models across both above telephone model families

- Supports concealed termination of the cable in the wall cavity (no visible cable or line cord)

- Holds the telephone at the correct angle to prevent the handset falling out of the cradle

- Designed for use on vertical or sloping panels (90 - 45 Degrees to the horizontal)

Kit Components

- IQ7626 Wall Plate with cabling termination (screw terminals)
- Link cable (connects IQ7626 wall plate jack to telephone jack)
- IQWK3 Wall Bracket
- Lug removal instructions
